ВАРИАНТ № 2

Nowadays, people buy more food from shops and ~~restaurants~~ restaurants than they can eat and it leads to huge food waste. And unfortunately while some don't have food to feed their children others just throw away food that they bought.

The first thing to do to reduce the amount of waste is to shop less. If you go shopping less often there is a higher chance that you won't buy something you don't need or already have at home.

The second thing is to create a list of products that you need and follow it without buying anything else. Not only will it reduce food waste, but also you will spend less money.

And ~~last~~ but not least is to give food away to shelters, homeless people, churches and other people and maybe even animals who are in need. There are a lot of people who can't afford groceries.

I think that ~~people~~ people waste food because they can't understand how much food they can eat without getting full. Unfortunately I also buy too much food when I go to restaurants but now I always take something home.

Unfortunately it won't be easy to reduce waste of food quickly. There are ~~a~~ a lot of irresponsible people who just don't care. But if you care try to follow my advices.

20	I think that title "Love, hope, faith" perfectly fits this story. Dr. Baxter never forgot Mr. Baxter and both she and her daughter loved him. Dr. Baxter was always faithful and never lost hope that Mr. Baxter would return. This story ended happily so we can say that love hope and faith should never be counted for nothing.
