ТВОРЧЕСКОЕ ЗАДАНИЕ (лист 1)

ВАРИАНТ № 1

In many parts of the world, there is not enough food for everyone. I think different economicall ~~the~~ qualities cause this. Not every country has ability to give a large ~~amount~~ amount of food to citizens.

Also, geographicall layout causes too. Import cant be used in countris, which are located in hard-transported places.

By the way, factories can't realise food for all people, because of they amount. Moreover, ~~some~~ products are not popular and useful for some countries. ~~Like~~ Like in Russia people don't eat crocodiles meat, because we don't have crocodiles farms in our country. ^{but} There are many sophisticated factories, which can ~~pro~~ make taste like that.

If we back to first reason, ~~the~~ springs to mind a lot of ostentatious receipts from poor people, wich includes grass, earth, mushrooms, wild berries and other uneatable things. Hungry people can eat everything. Unfortunately, this problem will be continued untill food can delivered to poor and hungry countries.

This is reason of why food not complains with every human. Some people can't eat dairy products. Their stomach don't understand this.
