ВАРИАНТ № 2

Nowadays people waste food that they buy from shops and restaurants. The majority think that it does not matter at all but wasting food has already become a global problem, a threat to everyone. That is why it is important to talk about it and try to find the solution. Below I am going to comment on why people waste food and what can be done to reduce the amount of food we throw away and give my opinion on the subject of the questions.

It is well known that we are always surrounded by goods. We see them everywhere: clothes, technologies, books and, of course, food. I think everybody will agree with me, if I say that food is the most necessary aspect of our life. It fills us with energy for a whole day to do everything we have planned. So people often buy more than they actually need. They are afraid of the lack of food and they bring more and more to their houses. Absolutely, food is getting spoiled and there is no another way except just throwing it away.

To my mind, people must know the limit to reduce the amounts of food and, maybe, participate in various ecological projects.

Well, that is all I have wanted to say. I am grateful for your attention.

He walked with the help of the cane."

20	"A power of belief." To my mind, this name is suitable for the text. Mr. Ramos was about to stop believing that Mr. Baxter would arrived but he didn't let himself to give up. Mrs. Baxter and her daughter carried on believing, too. So, a miracle happened: Mr. Baxter came to them even when much time later. The family came back together and the characters understood that belief has a power.
