The dramatically rising trend of ~~everyone~~ overconsumption is truly horrifying these days. Unfortunately, people mostly don't even realise, how irresponsible they treat ~~our~~ mother nature sometimes and how many resources they could have been saving daily by following ~~a~~ little helpful steps. In our modern reality, where we have a dozen of opportunities and variety in everything, from the amount of different products in shops and to the number of options how to spend your free time, ~~it's~~ ^a extremely difficult and almost impossible lowering your appetite due to shorten your bad influence on nature.

To begin with, we have to start thinking about the number of ~~plates~~ ^{meats} that ~~we~~ ^{you} order in restaurants. It may seem stupid or meaningless, but, in fact, ~~reality~~ it is ~~a~~ truly helpful. It's a perfect example of how strong your feelings can be in tragic and difficult times. Also the encouraging behavior behavior of Mrs Baxter is incredibly inspiring, because she got what she wanted after all, and craved.
