ВАРИАНТ № 3

It is a common knowledge that AI seems to be taking over the globe. Its influence can be viewed from different angles. Such

Firstly, ~~influence~~ major changes are caused by a few reasons.

Firstly, Many people consider AI a useful tool as it ~~is full~~ ~~but fits their need~~ ~~for it~~ helps them ^{to} save time. They no longer need AI can automatise processes like calculating, handwritten text converting, statistics making. Obviously, the ~~save~~ saved time is intended to be devoted to ~~more~~ creative work only human can do. However, as many people tend to be obsessed with fast results and putting in low effort, the AI ~~is~~ is usually exploited for ~~creat~~ creative purposes nowadays as well.

In my opinion, using AI as an art tool ~~is~~ especially ~~for recreational~~ slowly changes the way people perceive creativity. AI allows anyone to generate ~~an image~~ a text or a ~~digital artwork~~ ~~that can later compete~~ ~~with~~ drawing, and it is sometimes hard to confirm whether it was created manually. The real ~~threat~~ ^{art} is under threat of losing its value. I strongly believe that we are able to prevent it from happening.

ВАРИАНТ № 3

I think that the best solution would be ^{the} new policy concerning AI-generated art. ~~By changing copyright copyright~~ ~~rules, people~~ Some changes in copyright rules can especially protect artists.
~~without~~

~~All in all, AI is a tool that ~~helps~~~~
~~fulfills our need for saving time, that is~~
~~why ~~its~~ global spread is understandable.~~

All in all, AI benefits people only when used with honesty ~~and the intention~~.
~~The right way is AI doing the calculations~~
~~and the intention of setting oneself~~
free from mundane tasks. AI does
the dishes and calculates ~~and~~ — a person
writes, analyses and draws : that is the
right way.
