ВАРИАНТ № 2

Nowadays, more and more ^{food} bought from shops and restaurants is thrown away as if they serve zero purpose. This problem is known as "food wasting". But why do people do like that and what could be done in such case? Let's figure it out. (48)

This phenomenon ~~was~~ has always been a problem for humanity and it is still present in our world. People sometimes buy more food than they are able to ^{but they think it's crucial} consume and here's the origin of ~~for~~ such wasting. After they ~~consume~~ eat and use the ~~part~~ necessary part of what they've bought, the rest goes down the dumpster. ~~This~~ (62) ~~That creates an exorbitant~~ creates an exorbitant quantity of ~~organic~~ litter which ~~can then regret~~ then can have mostly negative impact on the environment and can cause problems in food industry which can lead ~~to hunger~~ consequently to world hunger. (not) (62)

~~However~~ However, the hope is not lost yet. ^{Firstly, in} ~~the~~ our society, there can ~~be found~~ always be found people who care about such problems. ~~They~~ and they are called activists. They gather people around ~~the~~ who are interested too, ~~and~~ then make other people aware of this ~~problem~~ food wasting and encourage them to buy only what they need. ~~After~~ ~~There is~~ Secondly, there ~~is~~ exists an alternative solution, ~~people the~~ unconsumed part of the food can be distributed to homeless people. (77) (76) (75)

In conclusion, I'd like to remark that ~~if~~ people ^{themselves} are the only ones who can save the world from the problem.
