ТВОРЧЕСКОЕ ЗАДАНИЕ (лист 1)

ВАРИАНТ № 1

Usually the causes of food deficiency in some countries are poorly developed technologies and poverty. Also, ~~they~~ they often lack ~~the~~ balance between the ~~the~~ employed part of the population and the unemployed one.

However, there aren't many unsolvable problems, and that, certainly, isn't one of them. That is, if the people of the countries in question aren't reluctant to accept our help. To ensure that, we should learn their languages and show ~~more~~ respect towards their ~~or~~ cultures. Once we've gained their trust, we can share our technological achievements with them. If everything goes ~~well~~ well, half the problem will be solved.

Then, there's poverty. Whatever causes it should be dealt with. If some stingy ignoramuses take all the riches to themselves and refuse to share with others at all costs, an imprisonment will serve them right and make ~~for~~ lots of lives way more prosperous. If that's not the case, maybe, something's off with the job opportunities they have and new ~~vacancies~~ vacancies can and should be created. That, by the way, can be of huge help to those who want to bring home the bacon ~~in~~ their families but can't do that due to their guilt, age or trauma.

So, on the whole, we should bring prosperity to the poor countries by initiating cultural exchange, creating new ~~jobs~~ jobs and ~~putting~~ putting an end to any crimes we see.

ВАРИАНТ № /This image shows a single sheet of white paper with horizontal blue or grey ruling lines. A prominent diagonal line is drawn across the page, starting near the bottom-left corner and extending towards the top-right corner. The line appears to be hand-drawn. There are also some faint, irregular horizontal marks near the center of the page, possibly representing a fold or additional markings. The overall appearance is that of a clean, unused piece of stationery.

Вариант № 1

16	1) The humidity throughout the long day had been exhausting and not even the air conditioning could cope entirely with the damp heat. 2) Adele had been particularly trying; fractious, unhappy woman, Rebecca couldn't help but feel pity for her even though she knew that Adele would not appreciate such sentiments. 3) Rebecca swam strongly out to where the water deepened to dappled green.
17	1) Rebecca Rebecca had been Adele's nurse for 2 years. 2) She was about 23-25 years old 23-25 years old 3) Firstly, because Adele never used it. Secondly, no one else came here. Thirdly, Rebecca's morning swim became sort of a ritual that most of her days started with and that helped her to keep keep mentally healthy, no matter how trying her patient was later on. 4) it was a heart complaint. that she was ready to take on anything 5) She applied for the job to escape from an unhappy situation, which means but whatever she was, she was
18	1) a gust of wind blew 2) as something light to be given to her 3) inability to communicate no matter what no matter what 4) special place where you can come to take a breather from your problems and get yourself together 5) to start fulfilling your duties, no matter how tiresome they may be.
19	1) exhausting 2) hostile 3) ill 4) artificial artificial 5) dying
20	I'd call call this story "A Breather" as it's just what Rebecca Rebecca can and needs to do to survive to survive after a long day that's worn her out and before before another one, just just as exhausting, if not worse. The lagoon's where she can leave her problems for the time being, otherwise she'll break, what with Adele she can't even feel sorry for about without getting snapped at.
